(EWI) is an international organization of leading non-competing business and professional firms. The firm holds the membership and is represented by individuals engaged in executive and administrative positions. The primary goal of EWI can be summed up as professional women working together for the benefit of the firms they represent and for their own personal growth and advancement through their contacts and exchange of ideas and information with other executive women. To develop leadership qualities through participation in the organization's activities and administration, which in turn increases their effectiveness to their firms. To contribute to the community through their involvement in educational, civic and cultural activities.

One of the ways EWI contributes to the community is through our scholarship funds. Proceeds from the **EWI Dollars for Scholars Charity Golf Tournament** will directly benefit our *chapter* and our *scholarship fund*. Executive Women International® determined a need existed to provide direct assistance to adults in transitional situations who, for varied reasons, need funding or assistance for education to achieve career goals. For example, this financial support may be in the way of tuition, books, equipment or child care.
